High-performance power solutions for macro cell networks. EnerSys supports scalable, efficient energy storage for large-scale wireless infrastructure.

Investing in a telecom battery backup system is always one of the priorities for telecommunication operators in the 5G era. Sunwoda 48V telecom batteries have a capacity covering 50Ah-150Ah, ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Adding 5G radios to existing macro cell sites requires different types power and energy storage solutions. EnerSys® provides remotely managed power systems with increased density, higher ...

Upgrade 5G base station power in outdoor, indoor, and shared cabinets with custom rectifier module solutions for efficient, scalable, and reliable performance.

The HighJoule 100KWh Outdoor Cabinet Series supports RS485, CAN, Ethernet, and Modbus protocols for real-time data transmission. The integrated EMS platform allows for remote monitoring and ...

Perfect for factories, data centers, EV charging stations, and microgrids, this plug-and-play ESS cabinet provides peak shaving, backup power, and renewable energy optimization --all in a compact, easy ...

Designed for flexible energy storage applications, it is well-suited for small to medium-sized commercial facilities, telecom base stations, and edge computing sites.
