Efficient Power Generation: This 1200W wind turbine features a 5-blade design for smoother rotation and higher energy output, starting at a low 2.5m/s wind speed.

Easy to install and maintain the friendly environmental design wind turbine, this 1200W wind turbine generator kit is perfect for green windmill, homes, businesses, and industrial energy supplementation

Harness the power of wind with our 1200W Home Wind Turbine Generator Kit. Perfect for reducing energy costs and enjoying renewable energy in your home!

The 1200 Watt Wind Turbine Generator with MPPT technology is an excellent investment for those looking to harness wind energy effectively. With various applications ranging ...

With a rated power of 1200W and a rotor diameter of 4.27 ft, it delivers optimal performance, even in low wind areas. The turbine has a start-up wind speed of 2.5m/s (8.2ft/s) and a ...

Stable Power Output: Featuring 5 sturdy leaves and a 24-volt, 1200-watt rating, this wind turbine generator ensures consistent and stable electricity production

Harness the power of the wind with this 1200W 12V wind turbine generator. Perfect for off-grid living, it includes a charge controller for easy setup.

Easy to install and maintain the friendly environmental design wind turbine, this ...
