Featuring 215kWh of LiFePO<sub>4</sub> storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

Yangtze C& I ESS Lithium Battery System 120KW+241KWHL Cabinet Pairs High-power Delivery with Large Capacity Energy Storage

The company has always been committed to environmental protection and energy saving, and has cooperated with a number of universities, introduced high-tech R & D talents, and created a skilled R ...

Application areas: It can be applied to load peak shaving, peak-valley arbitrage, backup power supply, peak load regulation, frequency regulation and microgrids. The system has two operating modes: ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

120kW automatic grid-connected and off-grid switching cabinet is an intelligent power distribution system integrating various electrical components, aiming at providing users with efficient, ...

This system provides a 120kW sustained power output and a battery capacity of up to 225kWh, easily meeting the demands of most high-load applications like factories, commercial buildings, or large ...

This versatile energy cabinet supports pole mounting, wall mounting, and floor installation for diverse deployment environments. It will have fittings of remote monitoring, smart power-off functions, and ...
