As a leading sheet metal fabrication expert, we specialize in producing energy storage enclosures and power distribution cabinets that meet the highest standards of precision, reliability, and performance.

Off grid standby power supply: when the power supply of the power grid is interrupted, provide uninterrupted short-term power supply for important loads to reduce the economic losses caused by ...

Our 50KW, 60KW, 100KWH, and 120KWH All-In-One ESS Commercial High Voltage Battery Storage System combines a LiFePO4 battery pack with a hybrid inverter system, smart BMS, MPPT, PCS, ...

The HC129P is a versatile hybrid energy solution that combines photovoltaic, diesel-generator, and energy storage technologies. Designed for reliable power in off-grid or grid-weak environments, it's ...

Explore our advanced energy storage systems: 60kW/120kWh and 100kW/215kWh. Optimize your energy efficiency and reduce costs with reliable solutions.

We have seen an immediate reduction in our energy bills and a change in our power consumption patterns since we installed the PVMARS off-grid solar power system.

With our wide range of cabinet enclosures, you can find the perfect fit for your specific requirements. Whether you need a compact enclosure for limited spaces or a larger one for extensive installations, ...

This 120kWh high-voltage rack installation demonstrates GSL ENERGY's ability to provide scalable, safe, and high-performance energy storage solutions for Middle Eastern commercial and industrial ...
