Solar panel: Monocrystalline silicon, double-sided glass, double-sided power generation, 610W 620W 635W
Dimensions: 2465*1134*30mm Weight: 34kg per piece Packaging: 36 pieces per tray, tray ...

MONO-CRYSTALLINE DOUBLE GLASS Mono-Crystalline ELECTRICAL PARAMETERS(NMOT) with HALF-CUT modules power up to 550 MODULE

Raytech as a manufacturer and supplier of high-quality double glass solar panel, solar module, and solar panel, provide you with high-quality products and solar module customization service.

The bifacial technology enables additional energy harvesting from rear side (up to 25%), and thanks to the half-cut technology, the cell internal resistance is reduced, which provides an additional module ...

Excellent product appearance and performance Two-sided double-glazed modules, symmetrical structural design, low risk of hidden cracks.

This breakthrough PV product is made up of 60 bifacial mono-crystalline silicon cells with up to 20.5% module efficiency on each side. The total rated power output of the panel will range from 283 Watts ...

Better low-light power generation performance in low radiation environment such as haze and cloudy days
Using 182mm size Mono wafer Module power output up to 21.48%

Compared to traditional single glass modules, double glass modules offer significant advantages, particularly in terms of efficiency and durability. The rear glass layer can absorb reflected light, ...
