Hi I recently bought a 3kv fiveStar inverter and it's showing error 134. Is there any one here know the cause and how to fix it. Thanks.

The inverter settings only seem to cater for a 12v battery and the Manual supplied also only has 12v battery settings. The system is running fine but last night it stopped supplying to the ...

This user manual provides instructions for installing, operating, ...

On 2022/07/20 at 6:47 AM, Coulomb said: I think that Fivestar are legitimate resellers of Voltronic made Axperts. But then, why no CD? IF they are Axpert compatible, then assuming it's an off-grid model ...

The inverter works fine for 2 hours then shuts down indicating battery low but there is 80% of battery capacity left. I am leading towards battery setting (low voltage cut off setting) but i will ...

I have trouble updateing my settings for a Fivestar GP3024/24V3000VA inverter. The inverter & its manual only gives me options in the setup menu for the 12v system.

This user manual provides instructions for installing, operating, and troubleshooting a 3KVA/5KVA 24V inverter/charger. The manual contains sections on safety, installation, operation, specifications, and ...

For optimum operation of this inverter/charger, please follow required spec to select appropriate cable size. It's very important to correctly operate this inverter/charger. Be very cautious when working with ...
