Equipped with robust couplings, fast switching, accurate battery management and solid housing, each system offers resistant and safe energy storage, fully compliant with the PGS 37-1 directive.

The cabinet enables versatile deployment with integrated safety protocols, smart energy management, and optimized performance. It houses industrial-grade LiFePO₄ batteries offering scalable capacity ...

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems.

Housed in a single indoor cabinet, it combines a high-performance 50kW power conversion system with 100kWh of advanced LiFePO₄ storage, ensuring safe, efficient, and reliable energy management.

50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed ...

By adopting MOTOMA's Smart Energy Storage System, this hotel and restaurant in the Netherlands now enjoys lower energy costs, enhanced power reliability, and a more sustainable ...

50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C& I energy storage and microgrid applications. Individual pricing for large scale projects and ...
