In fact, TVA has been a leader in energy storage for the past 60 years with the Raccoon Mountain pumped hydro facility. TVA relies on this resource to routinely balance our system during fluctuations ...

While early adopters continue leading in deployment, activity across the country shows clear demand for utility-scale energy storage as a solution to rising electricity prices and soaring ...

To support our vision for a reliable and abundant energy system, the Solar Energy Industries Association (SEIA) is establishing goals for battery storage adoption in the United States and ...

The US Energy Storage Monitor is offered quarterly in two versions - the executive summary and the full report. The executive summary is complimentary to member companies and ...

Each quarter, new industry data is compiled into this report to provide the most comprehensive, timely analysis of energy storage in the US. All forecasts are from Wood Mackenzie Power & Renewables; ...

How Storage Helps TVA  
The Difference Between Short- and Long-Duration Energy Storage  
Providing Safe and Reliable Energy  
Current Storage Projects  
Looking Ahead  
Decarbonization and decentralization efforts will dramatically change the grid as we know it. TVA aims to prepare for future challenges by building flexibility into the system through strategic energy storage exploration and deployment. Check back here for updates on new storage projects. See more on tva.
