Aug 14 (Reuters) - The Trump administration is expected as soon as Monday to take another step toward curbing the growth of renewable energy in the United States by making it harder for companies...

As part of this effort, the Department will address provisions in the One Big Beautiful Bill Act to eliminate longstanding right-of-way and capacity fee discounts for existing and future wind and ...

The Trump administration plans to end a \$7 billion Biden-era program that helps low-income households get solar power.

This problem is not just in Tennessee, since 2012, solar panels on farmland nationwide have increased by nearly 50%. That is why the Department is taking action.

While the USDA's announcement is a major victory for agricultural advocates, challenges remain: State-level solar subsidies may still incentivize farmland conversion in some regions.

The Internal Revenue Service on Friday made it harder for wind and solar energy projects to get federal tax credits, issuing new rules saying that significant physical work must have ...

EPA Administrator Michael S. Regan announced the grant competition for communities with U.S. Senator Bernie Sanders (VT), who championed the program, in Waterbury, Vermont while ...

As urban landscapes evolve, understanding these photovoltaic protection mechanisms becomes crucial for green investors. While compensation frameworks continue maturing, proactive documentation ...
