What is the Bess scheme?

The £750m BESS scheme will strengthen the security and resilience of the energy system in the North West of England, and support the energy transition and the growth of renewable power generation in the region. Planning permission for the BESS was granted by Trafford Council, the local planning authority.

What is Carlton power's Trafford Bess project?

The Trafford BESS is Carlton Power's second major energy project that has been consented for the c12 hectare Trafford Low Carbon Energy Park, eight miles south of Manchester. The other project is Carlton's 200MW Trafford Green Hydrogen scheme; the scheme's first phase (15-20MW) is also set to enter commercial operation in Q4 2025.

When will Trafford be able to build a battery storage scheme?

Planning permission for the BESS was granted by Trafford Council, the local planning authority. Subject to a final investment decision, construction of the battery storage scheme is expected to begin in the first quarter of next year (2024) with it entering commercial operation in the final quarter of 2025.
