The Aksai Huidong New Energy solar farm, China's largest solar power tower project, reached a significant milestone by completing its panel field comprising an impressive 11,960 heliostats.

Recently in China, Luneng Group's multi-energy hybrid project in Fukang, Changji Prefecture, Xinjiang, hit a key milestone as the concrete shell of its 100 MW concentrated solar ...

The power station is located in Guazhou County in Gansu Province, in northwestern China. Unlike most solar thermal plants that use a single tower, this facility features two towering ...

China's commitment to renewable energy is exemplified by its latest achievement in solar power technology. The Aksai Huidong New Energy solar farm, the largest solar power tower project ...

The completion and operation of the Dunhuang molten salt tower solar thermal power station marks that China has become one of the few countries in the world that has mastered the ...

SDIC Gansu New Energy has commissioned the 750 MW Akesai Huidong CSP-PV plant in Jiuquan, China's Gansu province, combining a 110 MW concentrated solar power (CSP) tower and ...

China has reportedly developed the world's first dual-tower solar thermal plant near Guazhou County in Gansu Province to enhance efficiency and reduce carbon dioxide emissions.

China is building an enormous network of clean energy industries on the Tibetan Plateau, the world's highest. The intention is to harness the region's bright sunshine, cold temperatures and...
