How many inverter/chargers can be installed in a cabinet?

It is suitable for placing up to Three (3) inverter/chargers in series or parallel configurations. The cabinets are sized to enable mounting of all inverters and charge controllers in the same panel. This makes the installation much safer, whilst keeping all equipment out of sight and protected from the elements.

Why do I need a cabinet for my inverter & charge controller?

The cabinets are sized to enable mounting of all inverters and charge controllers in the same panel. This makes the installation much safer, whilst keeping all equipment out of sight and protected from the elements. The cabinets are made of aluminium, making them easy to position and providing a long service life.

Can a skybox be used in a grid-tie inverter?

Solar Compatible- The SkyBox can be used in off-grid as well as other alternative energy systems. It is compatible with both solar charger controllers and new or existing grid-tie inverters. No Break Supply- The SkyBox takes over the supply to the connected loads in a grid failure or when generator power is disconnected.
