HJ-SG Solar Container provides reliable off-grid power for remote telecom base stations with solar, battery storage and backup diesel in one plug-and-play solution.

The container integrates all necessary components for off-grid or grid-tied solar power generation, including solar panels, inverters, charge controllers, battery storage ...

A containerized system acts as a massive Uninterruptible Power Supply (UPS), keeping operations running smoothly until grid power is restored or diesel generators kick in.

This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

The solar power supply system for communication base stations is an innovative solution that utilizes solar photovoltaic power generation technology to provide electricity for communication ...

**Battery Backup Unit** The Green Cubes Guardian Battery Unit (GBU) is a 48V 19" rack-mountable Lithium ion Battery Backup Unit designed to be used with any power system.

**Remote power for off-grid locations:** Highlight the ability of solar containers to provide electricity to remote communities, mining sites, and oil rigs without extensive infrastructure.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.
