Discover how Dushanbe is electrifying its taxi industry with affordable Chinese EVs, spearheading a green revolution in Central Asia!

By September 2025, the city aims to completely replace its traditional taxi fleet with electric vehicles (EVs). This ambitious plan aligns with global trends towards sustainability and ...

DUSHANBE, Tajikistan, June 7. Taxi companies in Tajikistan's capital, Dushanbe, are mandated to fully transition to electric vehicles by September 1, 2025, Trend reports.

According to its Green City Action Plan (GCAP), the electrification of the city's vehicle fleets would be the most effective way of improving its air quality.

Decree of Chairman of Dushanbe city from 24 August 2022, No456, about "On approval of the action plan of the executive body of the city of Dushanbe for the development of electric transport for 2022 ...

Switching from conventional fossil fuel vehicles to electric vehicles (EVs) offers a promising way to reduce carbon emissions, especially if we also decarbonize our electricity sources. ...

Dushanbe's taxis are going electric with Chinese mainland EV brands powering a greener future. A mayoral decree has driven these brands to nearly 50% of the market.

September 1, 2025, was the deadline set by city authorities for a full transition to electric public transport in Tajikistan's capital -- including taxis. However, despite substantial progress, the goal remains unmet.
