The partnership aims to deliver battery storage projects that enhance grid stability and renewable energy integration across central and eastern Europe.

Hithium, a leading manufacturer of stationary battery storage solutions, and Solarpro, a prominent European energy generation and storage provider, today announced the successful ...

Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of 55 MWh.

RAZLOG, Bulgaria-- (BUSINESS WIRE)--Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to ...

Solarpro, a leading technological provider of solutions for the generation and storage of energy in Europe, has successfully deployed the largest battery energy storage system (BESS) ...

Located in Razlog, Bulgaria, this 55 MWh system, developed in collaboration with Solarpro, marks a significant step forward in the transition to cleaner and more sustainable energy ...

Discover the largest planned and under-construction battery energy storage projects in Europe as of mid-late 2025.

Eastern Europe has emerged as a key player in battery energy storage projects, driven by renewable energy expansion and grid modernization needs. Countries like Poland, Romania, and Hungary are ...
