What incentives are available for EV drivers in Sweden?

As a leader in the switch to electric, Sweden offers many great incentives for EV drivers. With an EV market share of 26% and an increase in sales of 253% in 2019, Sweden is making great strides in electric transformation. The growing popularity of EVs is due to increased incentives, namely national grants, tax subsidies, and local incentives.

How much money does Iceland spend on EVs?

From 2012 to 2022, the Icelandic government spent around 28 billion ISK in tax incentives for EVs. In the mid 2000s, Orkuveita Reykjav&#237;kur installed outlets in various locations including downtown Reykjav&#237;k, pictured.

Does Iceland have EV charging infrastructure?

In 2018, a major milestone was reached in Iceland's EV charging infrastructure, when the ring road (Route 1) was covered by DC fast charging stations with a distance of within 100 km between each station.

How many EVs are there in Iceland?

As of April 2023 there were 19,215 BEVs and 20,982 PHEVs in registered use in Iceland. BEVs are around 7% of the country's car fleet and PHEVs another 7%. This brings EVs to ~14% of the total passenger car fleet in Iceland.
