What is Delhi EV policy?

In order to significantly benefit Delhi's air quality, the policy intends to deploy 25% of all new vehicles to be battery-operated vehicles by 2024. The Delhi EV Policy has been regarded as one of the most progressive policies globally, through the policy we aim to ensure Demand Generation as a means to ensure mass adoption and quick proliferation.

What does EV mean in a policy?

Ambitions: government goals or objectives (also known as unofficial targets) as set out in a policy document such as a deployment roadmap or strategy. Acronyms used in the table: EVs = electric vehicles, which include battery electric vehicles (BEVs) and plug-in hybrid electric vehicles (PHEVs). HEVs = hybrid electric vehicles.

Are EV policies promoting EV uptake?

As in recent years, most policies supporting EVs target the electric light-duty vehicle (LDV) segment, for which market maturity is most advanced and vehicle availability greatest. In 2022, more than 90% of global sales of LDVs were covered by policy that encourages EV uptake.

Where can I find EV laws & regulations?

Searchable database of Federal and State laws, regulations, and incentives related to EVs, EV infrastructure, and other alternative fuel technologies. Includes some State-specific EV-related definitions, policies, and implementation plans. Access the DOE Alternative Fuels Data Center's Federal and State Laws and Incentives Database.

Global electric vehicle (EV) markets today differ widely, shaped by different levels of policy support, corporate activity, consumer preference and awareness, driving patterns and cultural specificities.

Includes some State-specific EV-related definitions, policies, and implementation plans. Access the DOE Alternative Fuels Data Center's Federal and State Laws and Incentives Database.

The Delhi EV Policy aims to achieve the overarching objective to improve Delhi's air quality and create an entire supply-chain ecosystem for this new segment of vehicles.

These policies can be categorized into four core pillars: purchase incentives, charging infrastructure funding, federal fleet electrification funding, and EV manufacturing and supply chain funding and ...

The latest electric car regulations, policies, news, and opportunities for government affairs teams interested in EV policy.

The table highlights current as well as announced key policies and measures that support the deployment of electric vehicles (EVs) and zero-emission vehicles (ZEVs) by region and country.
