What is energy in Monaco?

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco. Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France.

Who owns the electricity in Monaco?

Monaco's sole national power company is Sociéte Monégasque de l'Electricité et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services. SMEG is 60% owned by Engie, 20% by the State of Monaco, 15% by EDF, and the rest by private investors.

Does Monaco use fossil fuels?

Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France. Monaco's sole national power company is Sociéte Monégasque de l'Electricité et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services.

Ministerial Order no. 2025-171 of 31 March 2025 (JDM no. 8741 of 4 April 2025) introduced changes to the regulations governing aid for the production of photovoltaic electricity (‘aide à la production ...

It represents all the energy required to supply end users in the country. Some of these energy sources are used directly while most are transformed into fuels or electricity for final consumption.

This catalogue outlines the technical services offered by SMEG as Manager of the Public Electricity and Natural Gas Distribution Network in the Principality of Monaco.

Unlike other energy commodities such as coal, oil and natural gas, electricity trade between countries is relatively limited as it is more technically complex and requires a direct cross-border interconnection.

Monaco Government announces the tariff shield and the measures taken to control energy consumption.

These new regulations supplement the numerous tools that the Prince's Government has put in place to support those involved in Monaco's energy transition. Marie-Pierre Gramaglia ...

Businesses in Monaco must now turn off the lights overnight and set a 25°C limit to air conditioning as the government attempts to reduce the Principality's energy consumption.

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco.
