Decisions about choosing an energy storage system depend on a range of factors, including whether the system will be as a retrofit or will be installed with a new PV system.

In response, Intertek and Sigenergy have collaborated to release a White Paper that helps shape industry-wide benchmarks for the safe deployment and operation of C& I energy storage...

This white paper highlights how BESS solutions optimise renewable energy integration, reduce waste, ensure a reliable power supply, and reduce reliance on the grid.
