Researchers developed a fully integrated photonic processor that can perform all the key computations of a deep neural network on a photonic chip, using light. This advance could improve ...

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety ...

The EnergyPack P200 is a compact 10ft battery storage cabinet with 188kVA and 188kWh capacity to reduce energy costs, ideal for off-grid applications.

The Power Cabinet delivers safe, efficient energy storage with patented battery immersion technology, preventing fire propagation for reliable BESS performance.

Liquid air energy storage could be the lowest-cost solution for ensuring a reliable power supply on a future grid dominated by carbon-free yet intermittent energy sources, according to a new ...

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the development of novel ...

The PWRcell 2 Battery Cabinet can be configured for 9-18 kWh of storage capacity using 3.0 kWh battery modules. Suitable for indoor and outdoor wall mount1 with NEMA 3R rating. The PWRcell 2 ...

Giving people better data about their energy use, plus some coaching, can help them substantially reduce their consumption and costs, according to a study by MIT researchers in ...
