Designed for fabricating key components like cabinet bases, side panels, doors, and box frames, the MLU series integrates an intelligent material warehouse, laser cutting, bending, and laser ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Designed for industrial and renewable energy applications, our sheet metal cabinets feature reinforced seams, ventilation systems, and easy assembly. With lean manufacturing and JIT capabilities, we ...

The AGV flexible logistics system is used to achieve automatic assembly process of energy storage cabinets, rapidly improving product production efficiency and stability.

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO4 technology with modular design and robust safety architecture. Our solutions are engineered for long-term operation, scalable ...

This is an automatic welding workstation specially designed by AGERA for welding the box body of energy storage cabinets. It features a dual workstation design, with automatic clamping of fixtures ...
