Aptech Africa, a leading renewable energy solutions provider, recently executed a significant project in Guinea, comprising the design, supply, installation, and commissioning of two PV mini-grids.

The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV ...

The project encompasses the construction of a solar and battery energy storage system (BESS) minigrid to be built on the island of Buka, within the autonomous region of Bougainville in Papua New Guinea. ...

We began to develop our asset portfolio with a focus on the liberalised West Coast and Gulf of Guinea oil and gas Closeup of battery modules at Moss Landing Energy Storage Facility.

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy ...

Two towns in Guinea, a country in West Africa which grapples with issues of energy security, are reaping the benefits of newly installed solar PV (photovoltaic) mini-grids backed with battery energy ...

As Guinea's premier industrial real estate advisors, we guide foreign investors to develop, own, and operate the industrial parks that will transform the nation from exporter of raw materials to ...

As nations race to meet clean energy targets, Equatorial Guinea positions itself at the forefront with its New Energy Storage Industrial Park. This article explores the project's technical innovations, market ...
