-----

Our growing battery energy storage team has executed more than 90 BESS projects in the United States. They draw experience from our battery subject matter professionals representing all ...

Partner with KMB Design Group for your next Battery Energy Storage System project. With nationwide reach, multi-disciplinary expertise, and a proven track record, we are your trusted engineering ...

Whether designing solar farms or battery storage systems, our team ensures every project is built for maximum efficiency and reliability. We create customized engineering solutions that optimize power ...

Whether you're managing a commercial and industrial energy storage system in a facility, developing industrial infrastructure, or planning utility-scale BESS engineering projects, our team delivers power ...

Experienced at all levels of BESS design, our engineers excel at both custom solutions and connecting multiple large-scale rechargeable lithium-ion battery stationary energy storage units, responding to ...

Bono Consulting offers comprehensive engineering expertise in the design, development, and implementation of Renewable Energy and Battery Energy Storage System (BESS) projects. ...

Our team has worldwide experience, implements technological developments in each industry segment, combined with in-depth, detailed research and the latest trends.

We design systems with the highest reliability, lowest cost of ownership for the life of your project. We have negotiated terms, procured and managed projects for off-takers with all Tier-1 storage companies.
