(Yicai) July 7 -- US President Donald Trump's "One Big Beautiful Bill" will disqualify any clean energy project involving Chinese components from receiving subsidies, hindering new investment plans and ...

The company expects to provide more than half of the panels sold for large-scale solar installations in the United States this year, compared with ...

Explore the complete guide to solar grants, subsidies, and renewable energy incentives. Learn how to finance your solar panel and energy storage system.

As the U.S. transitions to more renewable energy sources, solar manufacturers are poised to benefit from federal tax credits enacted as part of the 2022 Inflation Reduction Act (IRA).

Two small solar manufacturers on Wednesday said they are joining forces to make panels that will enable their customers, U.S. solar project developers, to collect on a lucrative new ...

Now the company is building a massive panel factory in Texas -- and it could receive more than \$1 billion in tax subsidies under President Joe Biden's signature climate law.

Since 2022, when Biden signed the Inflation Reduction Act into law, companies have invested \$9.1 billion in U.S. solar factories that are operating and another \$36.7 billion in facilities that...

The company expects to provide more than half of the panels sold for large-scale solar installations in the United States this year, compared with around a third before the pandemic.
