The Vertiv(TM) DynaFlex BESS uses UL9540A lithium-ion batteries to provide utility-scale energy storage for mission-critical businesses that can be used as an always-on power supply.

Our cabinets can be fitted with or without climate control and are engineered for efficiency, offering precise temperature regulation to prevent overheating. Whether deployed indoors or in rugged ...

High efficiency: The two units are fitted with special high COP compressors and incorporate energy-saving features, such as a thermal expansion valve, low starting current, and an innovative ...

Robust 304 SS energy cabinet with IP65 waterproof design. Ideal for telecom and power systems requiring durable, weather-resistant outdoor protection.

The Energy Storage Air-Cooled Temperature Control Unit is used to regulate the temperature of energy storage systems in applications such as renewable energy storage, data centers, remote ...

Our 200KWh outdoor cabinet energy storage system works with PowerNet outdoor control inverter cabinets for modular expansion. This means you can meet the needs of large-scale applications ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.
