Overview In 2023, Guyana's hinterland town of Lethem launched a 1.5 MW solar farm paired with a 4 MWh lithium-ion battery. Result? 24/7 power for 3,000 residents--no more diesel generators! This ...

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has commenced in November 2024. [pdf]

Energy Superhub Oxford, a project with a lithium-ion-vanadium hybrid battery energy storage system (BESS) totalling 55MW, has officially launched. The opening of its EV charging park today (July 5) ...

Guyana's landmark Gas-to-Energy project reached a critical milestone with the arrival of a 30-MW backup battery energy storage system (BESS) at Georgetown's John Fernandes Wharf, ...

Guyana's landmark Gas-to-Energy project reached a critical milestone with the arrival of a 30-MW backup battery energy storage system (BESS) at Georgetown's John Fernandes Wharf, according to ...

With the Energy Storage Battery Forum 2025 just 18 months away, this small South American nation is positioning itself as the region's clean energy laboratory. The question is, can battery technology ...

With our team working on-site around the clock, focused on meeting international quality standards and the arrival of the BESS, the project moves one step closer to completion, ensuring ...

Meta Description: Explore how Guyana leverages lithium energy storage to transform its power grid, featuring real projects, tropical climate hacks, and economic impacts.
