What is the Hainan free trade port (FTP)?

Follow us on Facebook and join our Telegram channel for the latest updates. China is launching the Hainan Free Trade Port (FTP). It is, in essence, a special economic zone that covers the entire island and not just the port area. Its location is significant from a sea lane perspective, but it also defines the southernmost reach of China.

Why is the Hainan free trade port important?

BOAO, Hainan, March 26 -- As the world economy faces mounting uncertainty and rising protectionism, China is reaffirming its commitment to openness, with the Hainan Free Trade Port (FTP) emerging as an important gateway driving the country's opening up in the new era.

How many ports does the Hainan FTP have?

The FTP currently has eight open ports and 10 second-line customs ports. China aims to build the Hainan FTP into an important gateway that leads the country's opening-up in the new era.

How will the Hainan FTP improve trade and investment?

“Following the launch of independent customs operations, the Hainan FTP is expected to further improve the free and convenient flow of trade and investment with the rest of the world, while forging even closer ties with China's vast domestic market,” said Liu Xiaoming, governor of south China's island province of Hainan.
