Using state of the art proprietary photovoltaic modules, we generate clean, high quality energy, offering our customers the ability to start benefiting from clean renewable energy without any upfront cost.

Hanergy has a total production capacity of 3GW, in the solar energy field. Hanergy has entered into solar-power plant construction agreements with a total capacity of about 10GW. Hanergy bought ...

The above system prices are for single-phase grid-connected systems, excluding batteries. Some houses are three-phase electricity, the inverter is different, and the price will increase accordingly.

Hanergy's solar power generation installation solutions are redefining renewable energy with flexible thin-film technology that's turning roofs into power plants - sometimes so sleek you might mistake ...

Producing energy with solar panels is a beautiful thing. Therefore we designed our Solibro thin film solar modules to make them the best looking in the world, instead of just manufacturing them.

Hanergy GSE's new generation of flexible thin-film solar power generation components, with ICI core packaging technology, are even lighter (only 2.3 kg per square meter without adhesive), offering ...

Hanergy America develops and operates solar power plants, with the goal of generating cost-effective and reliable clean energy for our customers.

Hanergy operates in hydropower, wind power and thin-film solar power generation. It has over 6GW of installed hydropower capacity and 131MW of wind power capacity. In solar, Hanergy has production ...
