Is fossibot a good power station?

Fossibot isn't a household name, but that doesn't stop it from being a great value option for those looking for an extra-large power station for home backup. This power station comes with a massive 3,840Wh capacity, putting it in the same size category as the Anker Solix F3800.

Are portable power stations a good investment?

If you buy through our links, we may earn a commission. Whether you live in an area prone to power outages or want to take a way to power up with you on the road or camping, a portable power station can be an excellent investment, especially in the dark and cold winter months.

What is the best portable power station?

Bluetti AC 200 Max (2,048 Wh) (Update: Out of stock): The AC200 Max once held our title for the best value portable power station, giving you a 2,048 watt-hours of capacity (expandable to 8,192Wh), 2,200-watt output (4,800-watt surge) and 900 watts of solar charging power (1,400-watt solar plus AC). That's nothing to laugh at in this price range.

How do I choose a portable power station?

A portable power station's maximum output tells you the total watts it can produce, which determines what you can and can't power with it. Look for a power station that can handle the combined wattage of the electronics you plan to plug into it.
