Which solar panel brands have the highest value scores?

The solar panel brands with the highest value scores were JA Solar, Waaree, and Heliene. We found that the solar panel brands offering the cheapest panels were nearly half the price of the most expensive.

Which solar brand has the lowest module quality score?

Lowest scores for module quality: Mission Solar, Solaria, Aptos Solar 3. The PVEL Scorecard is a third-party list that recognizes solar brands whose products have excelled in additional reliability and performance testing, further proving the quality of the brand's panels.

What is the most important factor in ranking solar panel brands?

Company financial performance (20%) is the most important factor in ranking solar panel brands. This factor assesses the financial health of the solar panel manufacturer and serves as the best possible indicator of whether the company will be around to honor any warranty claims that may arise.
