Contrary to popular belief, Canadian Solar doesn't just produce "good" and "better" panels. Their manufacturing process actually creates three distinct quality grades:

You use many to indicate that you are talking about a large number of people or things. I don't think many people would argue with that. Not many films are made in Finland. Do you keep many books ...

Residential solar photovoltaic (PV) systems can bring significant value to any residential project. Most Canadian grid-connected solar PV systems are designed with the modest goal of reducing grid ...

Canadian Solar is a Canadian company and one of the largest manufacturers of solar cells and panels in the world. Their Tier 1 photovoltaic panels are constructed using advanced technologies, featuring ...

The meaning of MANY is consisting of or amounting to a large but indefinite number. How to use many in a sentence.

There are 48K solar energy installations in Canada. Saskatchewan and Alberta have the highest solar PV generation potential (6.5-7.15 kW.h/m²). Ontario makes up for 98% of Canada's ...

MANY definition: constituting or forming a large number; numerous. See examples of many used in a sentence.

Many Mansions is a non-profit organization that provides well-managed, service-enriched, affordable housing to low-income residents.
