High Power Capacity: The HUAWEI Rectifier R4875G1 has a power capacity of 4000W, making it suitable for demanding applications in communication switchboards, as specified by the user.

The Huawei 4875 series power module (such as R4875G1) is an efficient and high-power density communication rectifier module launched by Huawei, designed specifically for modern ...

R4875G1 is a 4000W, 97% efficiency, digital controlled high power density rectifier. It converts input voltage ranges between 85 to 300 Vac into 42 to 58 Vdc adjustable output voltage.

The Huawei R4875G Rectifier Module is a high-power and high-efficiency digital rectifier designed for advanced telecom embedded power systems. It supports a wide AC input voltage (85 ~ 300 VAC or ...

R4875G1 is a 97% efficient digital rectifier module that converts 85-300V AC input to 53.5V DC output at 4000W with high power density. It has advantages such as soft start, hot plug, input/output ...

Enjoy Free Shipping Worldwide! Limited Time Sale Easy Return.

The Huawei R4875G1 "server supply" is not as common as the R4850G2 version for which there is a lot of information available on the Internet, but the Huawei support web site has the R4875G1 user ...

We have provided new and old telecom spare parts services from 2G to 5G to Huawei, ZTE, Ericsson, Nokia, Alcatel and many other suppliers for more than 15 years.
