MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

You're asking yourself how to reduce the energy costs in your company? Our range of inverters offers everything you need to make your investment in energy efficiency worthwhile.

Boost your energy independence with our Container Industrial and Commercial Energy Storage System--a powerful 100kWh-215kWh solution with hybrid inverter, MPPT, and full safety integration, ...

SolarArk® provides world-class industrial and commercial energy solutions for scalable backup power, enterprise design, and reduced energy costs. Learn more.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Our containerized systems combine high-capacity lithium batteries, smart inverters, and advanced energy management software -- all integrated into a fully enclosed, plug-and-play container solution.

Each BESS container is rated at 1000kW AC inverter allowing for easy AC coupling of your renewable energy project (690V). Utilizing string architecture topology vs traditional centralized PCS design, the ...

We have been specializing in ICESS (Industrial and Commercial Energy Storage System) solutions for over 9 years. We currently have 87 employees, including 24 engineers.
