Mud Resistant Water resistance 200-meter water resistance Power supply and battery life Tough Solar (Solar powered)

This original Casio solar-charging system employs solar panels that convert light even from fluorescent lamps and other sources, combined with an internal rechargeable battery.

The GX-56BB is packed with features for demanding lifestyles: Tough Solar: Solar panels charge the battery, with an LMH indicator showing charge levels. Auto-Electroluminescent Backlight: A wrist tilt ...

Furthermore, this watch uses a solar-powered battery, reducing the need for regular battery changes. It also has a power-saving mode to conserve energy when not in use.

CASIO's solar watches incorporate groundbreaking technology that harnesses solar energy to charge the watch's battery. The solar panel is integrated into the watch's dial, converting light energy into ...

A solar panel that generates power from even a weak light source combined with a large-capacity rechargeable battery to drive multiple power-hungry functions reliably.

Solar operation Independent and environmentally friendly, solar cells provide the watch's energy supply. Excess solar energy is stored in a rechargeable battery.

Everything about this new basic black model capture the very essence of the rough, tough basic G-SHOCK image. Learn more about the Men's Black GX-56BB-1 from G-SHOCK. Shop this product ...
