We design and manufacture custom Lithium (LiFePO<sub>4</sub>) battery packs from 3.2V to 900V for electric vehicles, UPS, solar storage, and more. Contact us for a quote.

Custom Battery Pack & Charger Manufacturer For over 30 years, the Power Products team has been helping companies across a variety of industries, including public safety communications, healthcare, ...

Custom Power designs and thoroughly tests the battery management system of each lithium-ion and polymer battery pack we assemble to guarantee optimum safety and performance.

Lithium-ion battery pack manufacturing process includes separate cell sorting, assembly, and insulation stages to ensure high performance, safety, and longevity for all of our custom rechargeable battery ...

Whether you need a standard 18650 configuration or a fully customized lithium-ion solution, our team will create a reliable, high-performance battery pack designed to power your products safely and efficiently.

We offer a range of custom lithium battery packs, including lithium iron phosphate batteries for superior performance and safety. Additionally, we provide intelligent BMS options with UART, SMBus, RS485 ...

Discover top-quality aluminum and metal custom lithium battery cases. Craft your ideal lithium-ion battery with precision - simply share your requirements for a customized solution.

Although we carry an incredible inventory of battery packs for nearly every application, we know that sometimes there is a need for a custom application or a pack built to specification.
