As of mid-November 2023, more than 600 5G base stations have been installed in Kazakhstan. Of these, over 70 are located in the capital of the republic - Astana.

As the operator of Kazakhstan's postal network, Kazpost JSC is a basic element of Kazakhstan's nationwide infrastructure and the most important social asset of the state.

In December 2022, a consortium of operators represented by MT-S LLP and Kcell JSC won the auction of frequencies for 5G network deployment. The companies are to install more than 7,000 5G base ...

Services cover site acquisition, design, permitting, and construction, with integration of power and network systems. With nationwide field teams, strong vendor partnerships, and a strict safety culture, ...

More than 500 new antenna-mast facilities and mobile base stations will be built along national and regional highways. To promote fair competition, TTC will ensure equal access to the ...

Over the last 20 years, Kcell JSC has built one of the most modern, technologically advanced and extensive mobile networks in Kazakhstan.

ASTANA - Kazakhstan has surpassed 3,000 installed 5G base stations nationwide, Kazinform reported on April 12, citing Kazakhtelecom, the country's largest telecommunications ...

OverviewTelephonesBroadcast transmissionInternetKey developmentsKazakhstan's international calling code is +7, it is used in combination with the zone codes 6xx and 7xx. It is the only former Soviet country except Russia not yet to have transitioned away from +7, but that does not mean there were not attempts to switch their code. In 2021, the number +997 was allocated by the ITU, and was set in motion to be activated in 2023. However in early 2023, the country applied instead for the number +77 before finally deciding to keep +7.
