The product combines Kingspan's QuadCore insulated panels with dual-glass monocrystalline solar panels from Longi, one of the world's biggest PV module manufacturers.

Manufactured in the UK using state-of-the-art robotics, PowerPanel ensures precision and reduces the risks of on-site installation, blending high performance with a sleek, slimline design to ...

We believe that every Kingspan roof should come with integrated photovoltaic technology, making renewable energy a standard, not an afterthought. The launch of PowerPanel is a key step toward ...

Completed in June 2022, the Modesto plant's solar PV roof is now generating 65% of all electricity demand through onsite renewable energy. This is on track with Kingspan's global Planet Passionate ...

Kingspan Insulated Panels North America announces today that its Modesto, California, manufacturing facility is now generating 65% of all electricity demand through onsite renewable ...

Manufactured in the UK using state-of-the-art robotics, PowerPanel ensures precision and reduces the risks of on-site installation, blending high performance with a sleek, slimline design ...

Photo: Kingspan Insulated Panels is excited to introduce PowerPanel, an integrated roofing and photovoltaic (PV) solution designed for pitched roofs.

This next generation roof and PV solution combines the thermal efficiency of our industry-leading QuadCore insulated panels with high-efficiency PV technology to create a single, precision ...
