The Zambia Kitwe project isn't just about batteries--it's about enabling factories to run three shifts, keeping vaccines refrigerated, and powering the next generation of African industries.

The newly commissioned 60MW Itimpi Solar Plant in Kitwe comes at a critical time as Zambia faces a severe power shortage, posing threats to energy and food security.

Discover how the newly inaugurated 60MW Itimpi Solar Plant by CEC in Kitwe is set to mitigate Zambia's power challenges and boost its renewable energy future.

In a groundbreaking move that promises to reshape Zambia's energy landscape, President Hakainde Hichilema recently inaugurated the 60-megawatt Itimpi power project in Kitwe.

Kitwe, the second-largest city in Zambia, located in the heart of the Copperbelt, is shining brighter as we capture more of the sun's energy for our development.

As Zambia's mining capital seeks cleaner energy alternatives, Kitwe is witnessing remarkable growth in solar photovoltaic (PV) projects. This article explores how 5MWh lithium battery systems are ...

Kitwe, Zambia's mineral-rich hub, is now pioneering a new energy storage policy to address power shortages and support renewable energy adoption. This initiative positions Kitwe as a regional leader ...

Discover how the Zambia Kitwe Energy Storage Photovoltaic Industrial Park is transforming renewable energy adoption in Southern Africa. This article explores its technological innovations, economic ...
