What is the world's largest lithium-ion battery?

Currently the world's largest lithium-ion battery, the Moss Landing project in California has a mammoth capacity of 1,600 MWh - about 3.5 times larger than its next biggest rival. To put that in perspective, Moss Landing can provide enough electricity to power over 1 million Californian homes for 4 whole hours when discharging at max capacity!

What makes CATL the world's largest lithium battery producer?

Let's break down what makes CATL the undisputed leader: World's largest lithium battery producer, capturing around one-third of the global EV battery market. Major supplier to Tesla, BMW, Volkswagen, and numerous Chinese EV brands. Manufactures both LFP and NMC batteries in various formats.

Which country manufactures the most EV batteries in the world?

China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells and control nearly 60% of the EV battery market. 13. Amperex Technology Limited (ATL)

Who makes lithium batteries in 2025?

In 2025, a mix of Chinese, South Korean, and Japanese giants dominate the lithium battery landscape. Companies like CATL, BYD, LG Energy Solution, and Panasonic lead in production capacity and innovation, shaping the global shift towards electrification.

Location: South Australia Capacity: 150 MW / 194 MWh Technology: Lithium-ion When it was completed in 2017, Hornsdale Power Reserve held the title of world's largest lithium-ion battery ...

The largest lithium-ion battery represents a significant leap forward in energy storage technology. As we continue to innovate and expand the role of renewable energy, these colossal ...

The global battery market is projected to reach \$329.8 billion by 2030, growing at a CAGR of 15.8%. The lithium-ion battery market alone is expected to exceed \$182.5 billion by 2030, with an ...

The Biggest Lithium Battery Manufacturers in the World As the world increasingly moves towards electric vehicles (EVs) and renewable energy storage, the demand for lithium-ion batteries ...

The global largest lithium-ion battery manufacturers Company Overview: Founded in 2011, Contemporary Amperex Technology Co. Limited (CATL), headquartered in Ningde, Fujian, ...

Largest lithium ion battery

Launch: 2020 Capacity: 1,600 MWh FYI, the California Moss Landing battery farm takes home the gold as world's largest lithium-ion storage facility! Consisting of 4,500 racks of battery ...

The Moss Landing Energy Storage Facility, the world's largest lithium-ion battery energy storage system, has been expanded to 750 MW/3,000 MWh. Moss Landing is in Monterey County, ...

In 2019, BYD built the world's largest battery plant In lithium-rich Chinese province The top EV battery manufacturers include CATL, BYD, Panasonic, SK On, LG Energy Solution, ...
