How can Saint Lucia achieve its planned energy transition?

The path to Saint Lucia's planned energy transition requires massive deployment of an applicable set of proven clean-energy technologies, taking advantage of the country's full renewable energy potential, particularly solar, wind, and geothermal resources.

Is Saint Lucia a good place to get electricity?

Saint Lucia has substantial potential for electricity generated by renewable energy. Solar energy potential is estimated at 36 MW, equivalent to about 41 percent of installed capacity for electricity generation using fossil fuels. Moreover, Saint Lucia is estimated to have huge geothermal resource potential, about 680 MW.

What will Saint Lucia's energy sector look like in 2030?

The NEP's overall vision for Saint Lucia's energy sector in 2030 is a modern, sustainable energy sector focused on energy security, cost minimisation, and local enfranchisement.

How much energy does Saint Lucia use?

Saint Lucia's primary energy supply amounts to about 8,000 terajoules (TJ), of which 92 percent comes from imported oil and 8 percent comes from renewable energy sources.<sup>20</sup> Per capita energy use is estimated at about 1,936 kWh.<sup>21</sup> Total installed capacity for electricity generation in Saint Lucia is 93.1 MW.

**SAINT LUCIA AIMS TO ENSURE A SECURE, RELIABLE, GREENER, AND MORE RESILIENT ENERGY SCETOR.** The updated National Energy Policy for the period 2023-30 and its ...

This National Energy Policy, covering the period 2023 to 2030, reflects the commitment of the Government of Saint Lucia to strengthen energy security and reduce energy supply costs, and ...

The NEP for Saint Lucia, covering the period 2023 to 2030, reflects the commitment of the Government of Saint Lucia to strengthen energy security and reduce energy supply costs.

In a significant move toward energy independence and climate resilience, Saint Lucia is preparing to launch its second industrial-scale solar project--a 10 MW photovoltaic installation paired ...

**PLAN | 5 EXECUTIVE SUMMARY RESULTS** Saint Lucia's energy transition opportunity provides a win-win situation in which the Government of Saint Lucia supports constituents through cheaper ...
