EverExceed can provide customers with lithium battery indoor cabinets, It is widely used in telecom, radio and television, monitoring stations, electricity, energy, transportation, security, power amplifier, ...

Users can remotely monitor the system's performance, including metrics such as energy yield, consumption statistics, battery State of Charge (SOC), State of Health (SOH), and more.

15-30KW Three-phase Lithium Ion Battery Inverter boasts of fast switchover, 98.2% efficiency, IP66 rating, and DC/AC surge protection and is very suitable for residential and industrial energy storage ...

It has multiple advantages such as safety, reliability, ease of use, and flexible adaptability. It can be widely used in application scenarios such as industrial parks, community business districts, ...

Keep your workers safe and increase fire prevention by storing and charging lithium-ion batteries inside this lithium-ion battery charging safety cabinet with manual close doors.

An integrated outdoor battery energy storage cabinet is a self-contained unit designed to store electrical energy in batteries for various applications, including renewable energy integration, ...

We are committed to providing global customers with high-quality, high-performance, safe and reliable energy storage battery products and comprehensive energy storage solutions.

Battery system consists of 3 modules in parallel to form 48V300Ah system. BS-48300P-C Product management system is made up of 3 independent unit BMS.
