Lome harbour energy storage project Led by Harbour Energy, Viking CCS will develop the infrastructure to transport and store CO<sub>2</sub> in secure offshore storage sites.

The World Bank is inviting consultants to submit proposals for a technical study on a 350 MW to 400 MW solar project with battery energy storage in Tunisia. The deadline for applications is March 24. [pdf]

main aim of the work is to develop the algorithm for controlling the energy balance of an autonomous photovoltaic power plant with electrochemical and thermal energy storage.

The Lome's energy storage tender represents a pivotal moment for Togo's sustainable development. By combining cutting-edge technologies with local needs, bidders can deliver solutions that power ...

The construction of pumped storage power stations among cascade reservoirs can improve the flexible adjustment ability of the clean energy base, which also changes the water transfer and electrical ...

This article establishes a full life cycle cost and benefit model for independent energy storage power stations based on relevant policies, current status of the power system, and trading rules of the ...

Gambit Energy Storage facility is a state-of-the-art battery energy storage system that helps ensure power reliability in the ERCOT market. The facility is located at an optimal site for new energy ...

Who Cares About Energy Storage? (Spoiler: Everyone) It's 3 AM in Lome's, Togo. A hospital's diesel generator sputters during emergency surgery. Meanwhile, 16km away, the Lome ...
