The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

The Solarlift, also called a panel lift or PV panel lift, is an efficient solution for speedy & safe transport of photovoltaic & solar panels.

Utilizing an aluminum frame and a panel lifting system connected to an electric winch, the Solar Buddy Panel Lifter quickly and easily fits onto the structure and securely locks the panels in ...

The Solar Access(TM) system provides a 2m-wide working platform, ensuring effective solar panel installations for various solar energy systems. If more space is required, the system is fully modular ...

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

Discover TAWI's solar panel lifting solutions designed to improve efficiency and safety. Optimise solar panel logistics with ergonomic, single-person lifts for inspection, order picking & container unloading.

RGC's Platform Hoists and Swing Hoists are essential tools for solar panel installations, offering safe and efficient solutions for transporting heavy and bulky materials to rooftops and elevated areas.

Work anytime with the MightyLifter's three winch options: a manual winch, a 2kW AC electric winch for large jobs, or a 1.5kW battery-powered winch for off-grid installations.
