The Battery, if placed next to a Solar Panel, can store the EL the panel gets. But if we destroy the Battery, EL are lost forever. That's why I created the Portable Battery. It can be placed in ...

Discover and publish projects on Modrinth with a modern, easy to use interface and API.

Depending on what pack you play on, there are also incredibly expensive generators added by Greg Tech (lightning rod and fusion reactor, if I am not mistaken). The more advanced ...

You will need to have double the amount of solar panels than you need, then run multiple MFSU's in series. The idea is that night lasts as long as day time, so if you can produce double the amount of ...

Solar generators packed up are not enough. Download Permanent Light Generator [Fabric] by NikaidouHiro, with over 1.1K+ downloads on CurseForge.

View the changelog of Permanent Light Generator's 7 versions.

Setting up a power plant and energy grid in Minecraft can completely change how you play the game, especially in survival or tech-based modpacks. I've built a few energy systems over ...

I produce so much energy but the cells are so slow to charge. Each of my several machines requires 1k+ J to run and the output of my array is around 1k, leading to lots of shortages.
