French-owned battery developer Giga Storage has begun construction of its 300 MW/1.2 GWh Giga Leopard project in Delfzijl, Groningen, after securing EUR300 million (\$342 million) of project ...

Recently, Moonwatt announced that its sodium-ion battery energy storage project, implemented in the Cleantech Park in Arnhem, the Netherlands, has been successfully put into ...

Energy storage and smart grid solutions firm Alfen is deploying a 30MW/68MWh battery storage project in the Netherlands for commissioning later this year, the largest under ...

Lion Storage has received a construction permit for a 347MW/1,457MW BESS project while Giga Storage hopes to start construction on a similarly sized one this year, representing a ...

Moonwatt launches Europe's first sodium-ion energy storage project in the Netherlands. The modular NFPP system marks a commercial milestone for alternative battery tech.

OranjeWind is to establish new ways to integrate intermittent renewable energy generation into the Dutch energy system through electrolysers, smart charging stations for electric ...

Full Description This energy storage start-up from the Netherlands, founded in 2023 develops Iron-air batteries for large-scale long-duration energy storage. Iron-air batteries store ...

This project sets a precedent for future energy storage initiatives, showcasing the viability of large-scale BESS deployments and the benefits of strategic financial partnerships.
