Engineered for industrial energy applications, this solution delivers exceptional power density while maintaining >95% charge/discharge efficiency across commercial operations.

Its "Cube" battery system enables compact, high-speed charging and discharging, providing flexible fixed and mobile storage solutions.

The CATL electrochemical energy storage system has the functions of capacity increasing and expansion, backup power supply, etc. It can adopt more renewable energy in power transmission ...

Whether you're designing a custom battery cell/pack, deploying an energy storage system, or integrating an intelligent BMS -- our 12,000+ team are ready to co-engineer a solution tailored to your goals.

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Ideal for hyperscale, colocation, and enterprise sites requiring extended runtime in a space-constrained environment, this cabinet combines safety certifications, simplified installation, and seamless ...

The company announced the new battery energy storage system (BESS) 20-foot DC block product, which uses its 650Ah large-capacity energy storage cell, at the Battery Japan 2025 ...
