The Board of Directors of the African Development Bank Group (AfDB) has approved a EUR26.5mn (\$28.57mn) financing package for the construction of a 62-megawatt-peak (MWp) solar photovoltaic ...

The African Development Bank Group's Board of Directors has approved a EUR26.5 million financing package to support the development of a 62-megawatt greenfield solar photovoltaic power ...

Since 2020, Togo has increased its electrification rate from 52% to 69%, providing thousands of rural households electricity through solar kits and the Blitta solar power plant.

Togo's solar capacity reached 100 MW by 2024, boosted by the 50 MW Blitta Solar Plant, West Africa's largest when launched in 2021. Aiming for 50% renewable energy by 2025 and universal access by ...

Construction of a utility-scale solar-plus-storage project is now underway in northern Togo. The 25 MW Dapong solar project will include 36,000 solar panels across 52 hectares, along ...

Togo's new solar farm, co-developed by EDF and Meridiam with support from AfDB, SEFA, and Proparco, will generate 87 GWh of clean electricity annually - strengthening energy ...

Togo is advancing its renewable energy goals with the launch of a 400 MW solar project in Kpalassi, located in the country's central region. This initiative is a central component of Togo's plan ...

Togo has launched the "Caf&#233; Lumi&#232;re" initiative, a solar-powered community electrification scheme, in a bid to accelerate progress towards universal energy access. The pilot phase was ...
