We're providing detailed design and construction support for New Zealand's first grid-scale Battery Energy Storage System (BESS) to enhance energy resilience.

Infratec's experience with BESS systems includes concept design and development, detailed design, installation, and integration of BESS systems in New Zealand and throughout the ASEAN regions.

We're proud to announce that we'll be delivering 2 x 10 MWh Battery Energy Storage Systems (BESS) to New Zealand -- marking two of the largest BESS installations ever commissioned in the...

We were impressed by Saft's competitive offer and track-record in delivering utility scale BESS projects in New Zealand. This is why we selected their BESS solution for the first phase of our ...

The uptake of BESS in New Zealand is particularly important given that it can help to solve one of New Zealand's biggest energy challenges - meeting peak demand. In recent years, ...

We offer a comprehensive range of diesel, gas, hydrogen and electric drivetrains for industrial, mining, marine, energy and agricultural applications. Our solutions include: As one of New Zealand's leading ...

New Zealand state-owned energy company Meridian Energy has committed to the construction of a 100MW battery energy storage system (BESS), to be provided by Saft.

September 27, 2024: Saft, a subsidiary of French oil giant TotalEnergies, has won a 100MW/200MWh contract to deliver a turnkey, utility-scale BESS for Genesis Energy, a listed New Zealand ...
