The new container generation from Karmod is now responsible for solar energy container and Mobile solar power storage container in Nigeria.

Discover how the Abuja container energy storage project is transforming Nigeria's energy landscape with scalable, eco-friendly solutions. Learn about its applications, benefits, and the role of cutting ...

Integrating solar PV into the national grid requires advanced grid management systems to balance supply and demand and investments in energy storage solutions to ensure ...

SCU delivered a fully integrated off-grid solar energy storage system for supermarkets in Nigeria. The solution is built around BRES containerized energy storage systems with almost 1MWh ...

In early 2025, E-abel's sub-brand Isource, which focuses on emerging markets across Africa, the Middle East, and Southeast Asia, successfully secured a major EPC contract for a new ...

The project highlights how Nigerian developers are moving beyond basic solar adoption toward integrated energy systems that prioritise uptime, operational efficiency and long-term resilience.

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

In response to this energy gap, ATESS, in collaboration with local Nigerian partners and organizations, contributed to the completion of a cutting-edge 1MW solar mini-grid system, ...
