What are outdoor telecom enclosures?

Outdoor telecom enclosures are structures designed to protect and house telecommunications equipment outside. They come with a range of options including cable management, thermal management, environmental protection, and integration. All these solutions and enclosure products can be custom-made. KDM relies on custom and standard NEMA standard telecom cabinets to protect their internal equipment.

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3, 3R, 4, 4X, and 6. Our telecom outdoor cabinets are factory tested, field proven, and worry-free.

What is a telecommunications enclosure?

Telecommunications enclosures are used in protecting electrical equipment in charge of transporting voice, video and other data for a number of industries. Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.
